About

**Provour & Techpros Group**

## Professional x Flavour

Provour is a new brand & company created and owned by Techpros group.

The concept of the brand name "Provour" is to deliver customers with professional, stylish, aesthetic, elegant for giving exceptional space flavour.

Techpros was established in 1999, mainly supplying public furnitures for restaurants, offices & conference rooms, waiting areas and lounges as well as providing OEM / ODM service for theatre and auditorium chairs, stadium seats, and school furnitures, etc.

# Production Capability One Stop Solution

About OEM / ODM, Provour can respond to customers' demand, which develops new products with in-house consistent production process. It can be one-stop production from providing the corresponding concepts to customers' demand, design, prototyping, production with quality control to shipping management. Manufacturing strongholds can extend from original own factories in Taiwan to abroad as well as in other Asian countries due to its entirely manufacturing network. Aims to create the high-quality products, the manufacturing department established the strict quality control standards, and always strives for the guarantee of product safety.

For OEM / ODM, our main products are based on commercial furniture and public furniture, we provide customers with high-quality products to meet their budget.
